PRODUCT PORTFOLIO

➤ 18 AQE PRACTICE PAPERS WITH ANSWERS

Professionally designed AQE Practice Papers. Based on the actual 2011 -2016 AQE papers. Maths and English specialists creating original content.

➤ POWERPOINT OF PRACTICE PAPER

Each individual question presented from the paper. This has been proven to help children and teachers with engagement in the marking process. There is space to allow for teachers to annotate on the whiteboard alongside the questions.

➤ ANSWER BOOKLET

A unique document to the market, with not only the answers given, but detailed feedback as to best practice to complete the different maths questions. This is coupled with useful teaching tips to help children learn concepts in the most efficient way possible.

➤ 10 AQE REVISION BOOKLETS

Booklets contain speed tests, parental explanations, reading lists and practice questions, covering both English & Maths aspects of the AQE test.

➤ BANK OF 6000+ REVISION QUESTIONS

For EVERY maths question in the practice papers there is an additional resource available, consisting of a FURTHER 12 questions, replicating its content and style. These resources can be used in conjunction with the papers, offering valuable revision practice, or by using the websites inbuilt search function, allowing topics to be located at the click of a button, facilitating teaching within the classroom.

➤ VIDEO OF PRACTICE PAPER

EVERY practice paper answered from start to finish in video format.

(When considering cost, the majority of Primary Schools Stirling Tuition currently work with request a contribution to costs from parents of children sitting the AQE)

ABOUT STIRLING TUITION

Stirling Tuition was created in 2017 by Sam Stirling. A tutoring centre to support children through the AQE and maths up to GCSE. Sam has 15 years experience working with children in a range of settings, Youth Offending Team, Probation and ultimately as a P7 teacher for 8 years. Within this time, he became a mainstay in his schools preparation for exams, leading to a consultancy maths post within a Trust of 8 outstanding and good primary schools.

Now with a thriving tutoring centre, Stirling Tuition is creating a bank of up-to-date AQE resources, specifically for schools.

It is Stirling Tuition's aim to help your school and children achieve the best possible outcomes from the AQE, providing resources that are robust and adaptable, creating time efficiency for teachers to do what they do best: **teach!**

Do you agree that every child deserves a quality education? By purchasing Stirling Tuition's AQE resources, you are supporting Pencils of Promise, a not-for-profit organisation that believes an education should be the right of every single child.

Pencils of Promise creates schools, programmes and global communities focused on achieving the common goal of education for all.

Stirling Tuition is making the pledge, for every school that purchases Stirling Tuition resources, they will pay for a child to receive access to Pencils of Promise's Education Programme, offering hope for children who are less fortunate.
